

Northface Condominiums

North Conway, New Hampshire

June 14, 1999

Dear Northface Condo Unit Owner:

REMINDER

If you are planning to replace your sliding glass door and screen, please be reminded that it must be of a Sandstone shade (the color of the new screens installed by the Association) or a Bronze shade (the color of the original door) if you are replacing the screen only.

These colors are the only ones approved by the ownership at the last annual owners meeting.

If compliance is not received and an unapproved color is installed, you will be responsible for painting the door and screen framework to be in conformance with the Association's policy.

Thank you in advance for your understanding and compliance.

Sincerely,

Executive Board
Northface Condominiums
