Hello Northface friends and neighbors,

Those of you that have been here the last couple of days may have noticed that we have a couple of mulch piles in the parking lot waiting to be spread. I had floated the idea with the board to put in a little sweat equity and mulch the driveway side beds this coming weekend. The intention was to invite anyone interested in participating to help out on Saturday afternoon 7/8 after our board meeting probably around 1 or 2 pm.

Right now the weather is not looking very cooperative Saturday as there are scattered thunderstorms in the forecast for that time. Given the forecast, I think that Bob Lang and I will start doing some mulching Friday and see how far we can get. If anyone is around and wants to help out or just supervise and chat please feel free!

Ben (Unit 18) and the Board
