Good Morning,

We would like to provide you with an update regarding the ongoing construction and maintenance work in your buildings. Please read the following information carefully:

### Building 2 and 3:

We are pleased to announce that the majority of the work in Buildings 2 and 3 has been completed successfully. The only remaining task is the installation of stove pipes, which will be handled by Masonry Unlimited. We have been informed that they have ordered the necessary pipes for installation, and the delivery is forthcoming. Once the pipes are received, the installation process will commence. We will keep you informed of any updates regarding the installation schedule.

### Building 1 and 4:

This week, workers will be entering units in Buildings 1 and 4 to replace the thimbles. The thimble replacement process began today in Building 1 and is expected to be completed by the end of the week. We understand that each unit presents unique challenges, making it impossible to provide an exact schedule for when workers will be entering each individual unit. However, please be aware that they will be working diligently to complete the thimble replacement in a timely manner.

If you have ordered new stove pipes for installation through Masonry Unlimited, please note that the installation of these pipes will be the final step once the thimble replacement is finished. We will provide further information on the installation process as soon as it becomes available.

We appreciate your understanding and cooperation during this construction and maintenance period. Should you have any questions or concerns, please do not hesitate to contact us. We will do our best to address your inquiries promptly.

Thank you for your patience and cooperation.

Best regards,

Ted Jendzejec
